Nazwa	**Barco MFD-3054 5 x 4 inch Multi-Function Display**
Cena	**0,00 zł**
Producent	**Barco**

OPIS PRODUKTU

The MFD-3054 is a multi-function, primary flight instrumentation display with a sunlight readable 5 x 4 inch Active Matrix Liquid Crystal Display and LED backlight.
AMLCD technology and LED backlight technology provides high brightness, excellent contrast and reduced volume with low power consumption. Various bezel options are available allowing the MFD-3054 to fit into various avionics architectures for both new and retrofit aircraft.

Features
Main features:
5 x 4 inch AMLCD color screen
640 x 480 VGA resolution
NVG compatibility option
Extensive Built-In Testing (BIT)
Up-to-date application processing
Forced air-cooling resulting in high reliability and low life cycle cost
Supports MOSArt
DO-178B and DO-254 DAL B
Possible interfaces:
Arinc429 input/output channels (with software adjustable speed)
Open/GND & 28V/Open discrete inputs
Open/GND discrete outputs
Ethernet lines 10/100Mbit (for SW development)
EIA-485/EIA-422 (general purpose communication line)
RS-232 (maintenance line)
