Nazwa	**MatrixPRO 8 X 8 DVI 8x8 DVI router matrix switcher**
Cena	**0,00 zł**
Producent	**Barco**

OPIS PRODUKTU

Barco's MatrixPRO-II SD/HD/3G-SDI series offers three models of high-speed serial routers: 8x8, 16x16 and 32x32. All three models are compact, have an extremely slim profile, are cost-effective, and provide an excellent solution for applications where budget and space are at premium.
Featuring genlock input
All routers support SDI formats from SD formats to 3G/HD. Their superior design allows for image switching and signal distribution without artifacts. They all feature a genlock input with loop through, ensuring that all switching is synchronized with the house sync.
Flexible control
The routers can be controlled from the front panel, RS-232, Ethernet connections or the Encore and ScreenPRO-II presentation systems. Barco's MatrixPRO-II SDI router series allows a single unit to be subdivided into multiple layers.
