Nazwa	**MDSC-8258 Slimline 58-inch Quad HD surgical display**
Cena	**0,00 zł**
Producent	**Barco**

OPIS PRODUKTU

The MDSC-8258 is a slimline, large-screen surgical display with LED backlight, featuring a 58-inch LCD panel (16:9) with Quad HD resolution (3840 x 2160).
Perfect images in the surgical suite
The MDSC-8258 has been designed for use in hybrid operating rooms, interventional X-ray and cardiovascular suites. The MDSC-8258 delivers accurate DICOM-compliant grayscale and color images with ultra-low latency, making it the preferred choice for real-time critical imaging.
Reliable and safe performance
The large-size, ultra high-resolution LCD screen offers a safer and more efficient alternative to multi-monitor configurations deployed in surgical environments. The optional configuration with a redundant power supply architecture (RL) ensures stable and reliable operation in the most critical conditions.
Benefits:
Ultra-high resolution (3840 x 2160 pixels)
Long-life, low-power LED backlight
Versatile input configurations (2 sets of 2 x Dual-Link DVI inputs)
High brightness, high contrast ratio, low-latency video processing
Slim and lightweight design; medical-grade compliance
Features
58-inch wide-screen color LCD with Quad HD resolution
Wide viewing angle
Advanced image processing algorithms
2 sets of 2 x Dual-Link DVI inputs
